Introducing the Cardin Javelin.

Come in and slip into a two-door sporty

There are few designers in the same league as Pierre Cardin, Maybe it's because he's just as good at thinking as he is at designing, ("People should feel like they're sitting in a living mom instead of

sitting to a machine." That's why we asked him to take the sporty feeling of the outside of our Javelin SST and carry it through to the issude.

Only Pierre Cardin can make upholstery look so elegant, door panels so classy, and a headiner

And only American Motors can give you a Cardin label at the price of a Javelin.

Besides that, the '72 Asterican Motors levelin is backed up with our Buyer Protection Plan. Which takes the frustration approvation and in-

convenience out of owning a car. Stop by your American Motors dealer and try on a Javelin for size.
